Marine Biology Teacher's Manual
(I.N. 988765)

PAGE 31

In the chart labeled “**Focus on Environment Construction**”, the first drop-shadow box at the top reads “apvector (constructors)”. It should read:

apmatrix (constructors)

In the same chart, the large shaded box on the top reads “apvector”. It should read:

apmatrix

PAGE 40

The second line in Option D should read “does not hit” instead of “hits.” Option D should read:

The simulation will produce the same results as the original only
when the fish does not hit either end of the tank with its last move.

PAGE 47

The second line in 2. (D) should read “does not hit” instead of “hits.” It should read:

The simulation will produce the same results as the original only
when the fish does not hit either end of the tank with its last move.
