

PowerFAIDS®

Automate your financial aid process with PowerFAIDS

Fact:

Awarding financial aid is a complex business. Financial aid offices must track, organize and process a great deal of data while providing customer service and counseling to students and families.

Solution:

PowerFAIDS® can help you streamline and manage your financial aid office. It is designed to automate the entire financial aid process, from performing need-analysis calculations to transmitting loan applications to automatically running reports. Used by more than 600 postsecondary institutions, it is the most powerful, comprehensive, flexible and economical way to process financial aid. PowerFAIDS meets the needs of any financial aid office — large or small — and can be easily integrated with other campus systems.

PowerFAIDS is all encompassing

PowerFAIDS combines a broad range of data processing services into a single, convenient software solution.

PowerFAIDS manages federal aid requirements and your institutional aid programs and objectives, and gives your staff the information and tools they need to provide smarter, faster service.

PowerFAIDS automates your entire aid process and eliminates hours of tedious paperwork. It manages student eligibility; verification; Pell, federal and institutional grants; award packaging; loan origination, including alternative and Federal Direct Student Loan Program (FDSLPL) loans; reporting; and research.

PowerFAIDS has helped a diverse mix of over 600 postsecondary institutions manage their financial aid offices and distribute aid effectively. **The College Board is the industry leader in financial aid software**, and PowerFAIDS will soon enter its 16th year of serving schools, students and parents.

Benefits and features

Rely on PowerFAIDS to:

- **Streamline** time-consuming functions such as record creation, period of enrollment (terms), budget construction and document tracking.
- **Automate** computation of Federal Methodology and Institutional Methodology need analysis, including instant, on-demand recalculations.
- **Enhance** your interaction with students using functionally rich communications, including the ability to e-mail students directly from PowerFAIDS.
- **Expand** customer service to students and provide data to other campus office colleagues more efficiently through the Net Partner Web student portal and the Web Client Module for staff access to data. Net Partner permits your students to accept or decline their awards online, and complete an online application or questionnaire that you create.
- **Speed** your loan processing and eliminate double data entry with XML export for FDSL P and CommonLine export process for Alternate Loans.
- **Schedule** regular activities, such as disbursements, external updates and generation of reports.
- **Create** sophisticated aid packaging formulas and algorithms so that you can implement your institutional aid policies.
- **Easily integrate** with the federal Common Origination and Disbursement (COD) System.
- **Combine** with third-party student information systems to give your institution a seamless view of student data.
- **Automate** disbursement functions according to federal and institutional rules.
- **Generate** powerful reports, including FISAP and the Common Data Set (CDS) Survey, as well as create reports on demand with the custom reports tool.

The sophistication of PowerFAIDS technology makes it easy to use

Because PowerFAIDS is an intuitive Microsoft®.NET-based solution, your own staff can perform operations during regular office hours. Other systems can take years to implement, but you can be productive with PowerFAIDS in weeks. The College Board helps you implement PowerFAIDS, trains you to use it, and provides ongoing technical support, upgrades, enhancements and free online training.

Powerful connections to other College Board enrollment solutions

PowerFAIDS, with CSS/Financial Aid PROFILE®, helps you make informed decisions about financial aid and meet your awarding and enrollment objectives.

PowerFAIDS and IDOC work together via a seamless data feed to give you online access to key documents. No more missing files!

PowerFAIDS — the economical financial aid system that is customized to meet the needs of your financial aid office, no matter how unique.
