I. SUBGROUP REPORTS

Highlights, Detailed and Competitor Analysis reports can be ordered for subgroups of students defined in terms of any information in the ASQ Plus data file (including your local questions, if any). Subgroup reports may be based on current ASQ Plus data or on multiple years. A Competitor Analysis report may also be ordered for competitors other than those included in the original report.

Be sure to define each subgroup so that students can be selected on the basis of specific responses to ASQ Plus questions (or to combinations of ASQ Plus questions). Examples of possible definitions follow:

- All female students [Note: male students would form a second subgroup]
- All in-state students
- All students who are female and who live in-state
- All students with SAT Verbal plus Mathematical scores over 1100
- All students who were admitted to... [give list of colleges]
- All students who rated ... [give list of colleges]

ASQ Plus Years	Subgroup Definition	Type of Report			
		Highlights Only	Detailed Only	Competitor Analysis	All Reports
	Total numbers of subgroup reports:				

II. ADDITIONAL COMPETITOR ANALYSIS REPORTS - Please list five competitors for each additional report

1. _____
